Overview of topics

Note: I had to leave early so some minutes are missing. Brian Ngo was chosen as the interim secretary for spring quarter.

1 Sean Davis

- He's our adviser
- He'll be at our next meeting
- There'll be a Q&A afterward

2 Natasha explains the reimbursement process

- There's a form for expenses <$50
- Everything needs to be an original copy
- Turn in everything as early as possible
- Expenses ≥$50 use the department credit card and vendors
- Announce large expenses in advance (the earlier the better)

3 Shirts

- Alex is ordering blue shirts through his vendor
- Preorders, so the expenses do not come out of our budget
- The department can order clothing but their vendor is more expensive

4 Discussion: Effectiveness of Facebook ads

- Resolved: people are flakes

- Book club has gotten very low attendance

- Likewise the last Bit/Byte meetup

- "People reached," "people interested," and "people who attend" decay exponentially

- If you ask people in person to attend, they are much more likely to do so
